

10. Continue to push research on ways to achieve continuous monitoring of dust levels;

11. Include surface miners in periodic x-rays offered to underground coal miners; and

12. Further review the program required by 30 CFR part 90 that allows miners with signs of black lung to transfer into low-dust jobs.

Initial review of the final report by MSHA indicates that the Agency can adopt some of the recommendations quickly through administrative changes; however, some recommendations that require research or rulemaking may take a year or more to implement. The Agency plans to begin work immediately.

Dated: November 20, 1996.

J. Davitt McAteer,

*Assistant Secretary for Mine Safety and Health.*

## NUCLEAR REGULATORY COMMISSION

### Correction to Order Approving Transfer of Licenses for Calvert Cliffs Nuclear Power Plant, Unit Nos. 1 and 2 and the Independent Spent Fuel Storage Installation

On November 4, 1996 (61 FR 56714), the Federal Register published the Baltimore Gas and Electric Company; (Calvert Cliffs Nuclear Power Plant, Unit Nos. 1 and 2 and the Independent Spent Fuel Storage Installation); Order Approving Transfer of Licenses for Calvert Cliffs Nuclear Power Plant, Unit Nos. 1 and 2 and the Independent Spent Fuel Storage Installation. On page 56714, under Section IV, the date by which a hearing request may be filed was inadvertently omitted. Section IV, paragraph 1 should read as follows:

By December 4, 1996, any person adversely affected by this Order may file a request for a hearing with respect to issuance of the Order. Any person requesting a hearing shall set forth with particularity how such person's interest is adversely affected by this Order and shall address the criteria set forth in 10 CFR 2.714(d).

Dated at Rockville, Maryland, this 20th day of November 1996.

For the Nuclear Regulatory Commission.

S. Singh Bajwa,

*Acting Director, Project Directorate I-1, Division of Reactor Projects—I/II, Office of Nuclear Reactor Regulation.*

[Docket No. 50-443]

### North Atlantic Energy Service Corporation; Notice of Consideration of Approval of Application Regarding the Formation of a Holding Company

Notice is hereby given that the United States Nuclear Regulatory Commission (the Commission) is considering approval under 10 CFR 50.80, by issuance of an Order, of the application regarding the proposed creation of a holding company by Great Bay Power Corporation, holder of a 12.1324 percent interest in the Seabrook Station, Unit No. 1 (Seabrook) as authorized by the facility operating license. By letter dated May 8, 1996, North Atlantic Energy Services Corporation, the operator of Seabrook and authorized agent for the eleven joint owners of Seabrook, informed the Commission that a corporate restructuring of Great Bay has been proposed that will result in the creation of a holding company under the name Great Bay Holdings Corporation of which Great Bay would become a wholly-owned subsidiary. Additional information related to this restructuring was submitted by the firm of Shaw, Pittman, Potts & Trowbridge, counsel to Great Bay, by letter dated October 18, 1996. Following the restructuring, Great Bay would remain holder of its license for Seabrook with respect to its ownership interest in the facility. Under the restructuring, the owners of Great Bay's common stock will become the owners of common stock of the holding company on a share-by-share basis. According to the proposed plan, there will be no significant adverse change in ownership, management, or sources of funds for operation, maintenance, or decommissioning of Seabrook due to the corporate restructuring.

Pursuant to 10 CFR 50.80, the Commission may approve the transfer of control of a license after notice to interested persons. Such approval is contingent upon the Commission's determination that the holder of the license following the transfer is qualified to hold the license and that the transfer is otherwise consistent with applicable provisions of law, regulations, and orders of the Commission.

For further details with respect to this proposed action, see the North Atlantic letter dated May 8, 1996, and the Shaw, Pittman letter dated October 18, 1996, which are available for public inspection at the Commission's Public Document Room, the Gelman Building, 2120 L Street, N.W., Washington DC, and at the local public document room

located at Exeter Public Library, Founders Park, Exeter, NH 03833.

Dated at Rockville, Maryland, this 18th day of November 1996.

For the Nuclear Regulatory Commission.

Albert W. De Agazio,

*Senior Project Manager, Project Directorate I-1, Division of Reactor Projects—I/II, Office of Nuclear Reactor Regulation.*

[Docket No. 72-2 (50-280/281)]

### Notice of Issuance of Amendment to Materials License SNM-2501; Virginia Electric & Power Company, Surry Independent Spent Fuel Storage Installation

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment 9 to Materials License SNM-2501 held by Virginia Electric and Power Company (VA Power) for the receipt, possession, transfer, and storage of spent fuel at the Surry ISFSI, located in Surry County, Virginia. The amendment is effective as of the date of issuance.

By application dated March 23, 1994, VA Power requested to amend its ISFSI license to authorize use of the TN-32 cask. This amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment.

In accordance with 10 CFR 72.46(b)(2), a determination has been made that the amendment does not present a genuine issue as to whether public health and safety will be significantly affected. Therefore, the publication of a notice of proposed action and an opportunity for hearing or a notice of hearing is not warranted. Notice is hereby given of the right of interested persons to request a hearing on whether the action should be rescinded or modified.

The Commission has determined that the issuance of the amendment will not result in any significant environmental impact and that, pursuant to 10 CFR 51.22(c)(11), an environmental assessment need not be prepared in connection with issuance of the amendment.

Documents related to this action are available for public inspection at the Commission's Public Document Room located at the Gelman Building, 2120 L
